Mission Statement by Eurobank Group Procurement Unit for Sustainable Procurement

In Eurobank, sustainability is a core element and integral part of our mission, defining our strategy, practices and values. With resilience, adaptability and continuous innovation, we actively contribute to the promotion of sustainability, fully aligned with the Group's commitment to create sustainable value for the Economy, Society and the Environment.

Our Procurement Policy incorporates sustainability as a central pillar, setting the framework of principles and rules governing the procurement of goods and services in every aspect of our business. Through our policy we accomplish:

- **To clearly articulate our commitments to support ESG (Environmental, Social, Governance) principles**
- **To define the responsibilities and roles of stakeholders, ensuring transparency, accountability and adherence to responsible practices**
- **To strengthen the framework of actions of the Procurement Unit with the aim of promoting innovative solutions, reducing the environmental footprint and strengthening social responsibility**

We target to actively support the Group's strategy, offering added value through responsible procurement, strengthening partnerships supporting sustainable development and enhancing competitiveness and innovation.

Based on our values as a guide and sustainability as a compass, the Procurement Unit is committed to acting as a catalyst for positive change, integrating ESG principles and creating the foundations through a value chain, for a better future for the Bank, shareholders, customers, suppliers and overall, for society as a whole.
